In August 2024, Padel Nederland proudly unveiled its new state-of-the-art padel facility in Den Haag, featuring the “Magnificent Seven” padel courts, two mini black courts, two single padel courts, and two pickleball courts. This grand opening marked a significant milestone for the facility, offering a premier destination for padel enthusiasts of all levels. The courts are designed for maximum playability and player comfort, thanks to the installation of Playrite’s renowned Matchplay 2 surface.

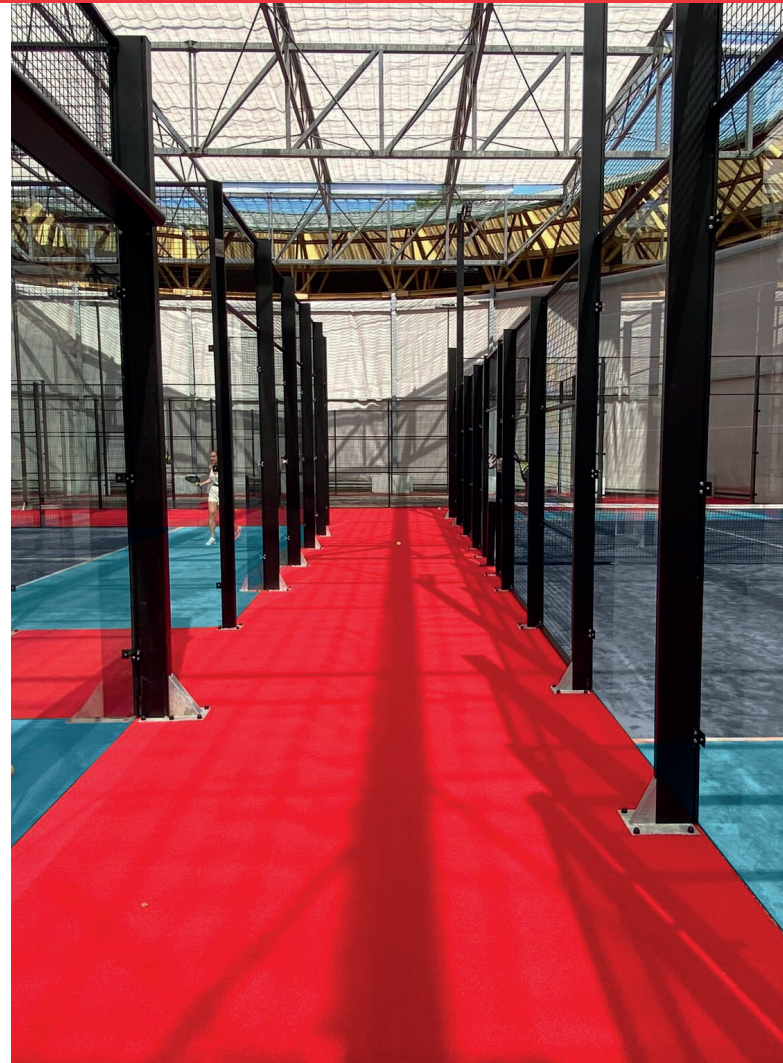

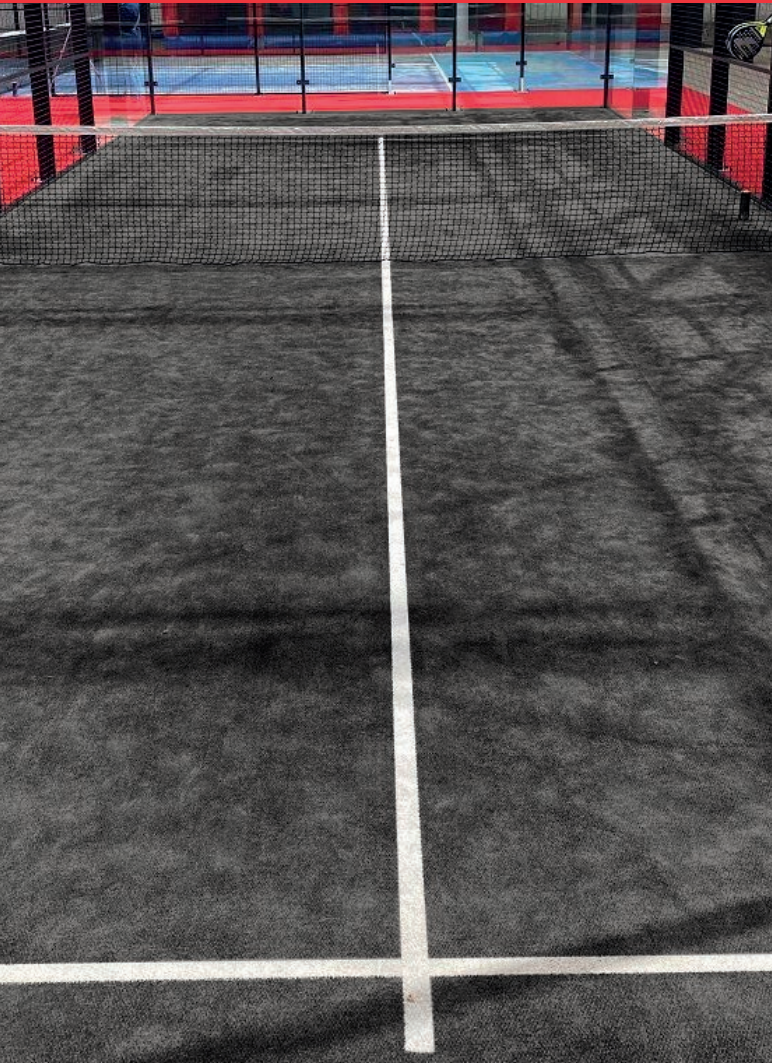

Playrite’s Matchplay 2 was chosen for its outstanding reputation in providing high-quality surfaces that balance performance and comfort. This artificial surface is designed to offer optimal ball bounce and speed, which is crucial for the fast-paced nature of padel. The installation process was seamless, and the courts were ready for play well ahead of the opening event.
